

SDGs in practice

19 September 2017, 19:00 - 21:00 hrs in Kargadoor, Utrecht (NL)

Purpose and Content of the Program

Purpose

Since the MDG has been transformed into SDG, Nedworc is active in information and discussion of the meaning of SDG goals and targets for the concrete work of consultants in development cooperation.

A number of SDG chapters are certainly very relevant to us, such as agriculture and water, education, peace issues, work and business. But how to apply these widely worked out norms and ideals?

Since SDGs were approved a lot of data has been collected, country studies have been made, seminars are organized. The Amsterdam University of Applied Science (HvA) takes into account the SDGs in the training of entrepreneurs.

What can we learn from that? What does it mean to implement SDGs, what are the tools, what does it mean for the practice of consultancy in development cooperation?

Content of the meeting

1. Welcome word and explanation of the program
2. Introduction on the role of The Ministry of Foreign Affairs, by Hugo von Meijenfeld, responsible for SDG at the Ministry
3. How to apply SDGs in practice? by Peter Wollaert of UNITAR
4. Nedworc colleagues bring a testimony:
 - SDGs in perspective of Disaster Risk Reduction, by Peter Oomen
 - SDGs follow up in Tanzania, by Karel van Hoestenbergh
5. Questions, suggestions, and sharing of practical experiences
6. Panel discussion with the speakers
7. Conclusion: how to proceed with the SDGs?

Organisation: Karel van Hoestenbergh and Anneke Wevers for NEDWORC Association
